

LUMEC

Informed economic solutions

INTRODUCTION

LUMEC is a Durban-based consultancy providing socio-economic analyses and solutions for Africa. We are committed to providing analyses that are data-driven and realistic, and solutions that are both practically implementable and sustainable. We are a young company with a fresh perspective that is centred on people and the environment. Our innovative and personalised approach separates us from our competitors. We understand that traditional economic concepts are not providing the results theorised, and this requires a new approach to economic research that will result in a more inclusive and sustainable society. Our methodology is collaborative, transparent and objective and aims to contribute to an economic system that is capable of facing the unique challenges synonymous with this new economic paradigm.
